A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

Black and gold (64cm), above medium size, very typey male who is well coloured and well pigmented, strong, masculine and expressive, desired dark eyes, well set neck, high withers, firm straight back, good lay of croup, just slightly short, very good fore and hindquarter angulation, broad well muscled thighs, very good fore and undershest development, stands correct, steps slightly narrow going, correct coming, he exhibits a very fleeting, powerful movement, powerful drive, very good reach, back remains firm, shows much energy and correct sequence of steps.

Stands firm and self assured and firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

A dog of much harmony, very good top and underline, well proportioned, correct forequarter proportions, good wither retention and presented in very good condition but his pasterns should be a little firmer. Very good hip and elbow status. He is a laudable example of his lineage, and his litter mates Raul and Roma are of very high quality.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

Combined with his already well established successful breeding lines he shows much potential for promise in his breeding future and should transmit positive qualities to his progeny. He would be advantageous to help improve type, proportions and overall bone length and quality of coat.
