Line Breeding:

A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

A large (60cm), above medium strong, black & gold, well pigmented bitch of good proportions and of very good type, very attractive head with dark eyes and admirable expression, the ears are just slightly wide-set, good length of neck, slightly level withers, firm back, good well-moulded croup, very good balanced angulations, stands correct in front, slightly short in foreleg, hocks just slightly close going but firm, coming elbows are slightly loose. She shows a good ground covering gait whereby the back remains firm. Lively and self-assured, she stands firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

Presented in slightly heavy condition, inclined to pace, sequence of steps not quite correct on a loose lead, measures slightly deep. This mature birch impresses with her outgoing character and strong colour. DM Clear.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

Ideally partners should have correct forechest proportions and correct withers, ensure also that partners have and come from lines of very good hip/elbow status. The lines of Labo v Schollweiher (Ger) and/or Freemont Watson (Aus) may well contribute.
