A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

Above medium size (64cm) above medium strength, well pigmented black and gold masculine dog of impressive type and very good proportions, very well formed head with correct ear set and very good strength of upper and lower jaws, dark mask and very good expression, absolutely correct length of neck, high wither, firm back, very well moulded croup of correct length and lay, very good angulations of the fore and hindquarter, very good underline and length of foreleg, moves with very good sequence of steps whereby the hocks are just slightly close, elbows correct, displays a very good ground covering efficient gait whereby the reach and drive are very balanced and the back remains firm. Calm and self-assured and stands firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

A very well constructed male who impresses with his clean firm lines, considerable harmony and trustworthy character. He displays on a loose lead very good maintenance of wither height and firmness. Measures slightly deep. DM Carrier.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

This male has much potential as a worthy sire. He is from a very high quality litter and is most phenotypical of his Sire Djambo. Suitable for improvement of general type, pigmentation and angulations. Consolidate his good hip/elbow scores by ensuring partners also have, and come from, lines of very good hip/elbow status.
