A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

A large (65cm) strong, substantial, very well pigmented black and gold masculine dog of very good type and slightly stretched proportions. Strong head with a very good strength of upper and lower jaws, and medium eye colour. Very good length of neck, high wither, firm straight back, just slightly short but well laid croup. Very good angulation of both the fore and hindquarter, correct forechest proportions. Stands nearly correct in front. Moves with pleasingly correct hocks, elbows good coming. Shows a very good, flowing, forward movng gait whereby the reach and drive are most effective, and he shows much power for his age. He is alert and self assured and stands firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

A young dog of much prescence. His impressive colour and pigment are complimented by his strength and substance. Confident, outgoing charavcter and masculine expression. His profuse but correct coat is a little unruly over the croup/hindquarter, this will settle with final maturity. He is DM clear. Very well maintained balance and sequence of steps on a loose lead. Shows a very slight left hook of the tail.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

Line bred 3:5 on Remo v Fichtenschlag, 5:5 Aimsway Abacus. Most sire typical, from a very good litter with a top winning sister and both parents medallists at 2022 Nationals. Potentially a very worthy sire, he is suitable for improvement in strength, substance, pigmentation and character.
