Line Breeding: Nil

Breeder: D Bannan
Residence: Christchurch

Owners: D Bannan
Address: 913 Main North Road, RD1, Kaiapoi, 769

A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

Black and gold (59.5 cm), large, very praiseworthy type, strong with very good substance and very good proportions overall, very good overall femininity, expressive with dark eyes, good placement of the neck, high withers in stance, firm back, strong loin, very well positioned croup just slightly short, very good fore and hindquarter angulation, broad thighs, steps correct coming and going, elbows yet to fully close, firm hocks, very roomy gait with powerful hind thrust, very good overall reach, very good length of stride and presentation, very effective transmission through her back with a very well maintained topline. Calm and self assured ad stands firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

A very typey bitch who has a very pleasing general construction with very good fore and underchest development, very good overall deportment, firm and dry, balanced brisket proportions, however her saddle should be darker and a little more defined. She has a very good elbow status, she is a DM carrier (low-risk) and due to hips being 7/9 she is Class II (one over), however in every other aspect she is a very high Class I female.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

She represents phenotypically very well the virtues of her bloodline which historically are sound producers. The selection of a partner should be based on maintaining this process. She promises much in her breeding future. She should offer very good predictability within her lines as she embodies a strong linkage to her parents. Partners should have sound hip status who are strngly pigmented and well coloured. Recommend the lines of Lenin von Grafenburg (Ger) with consideration to Xander vom Grabfeidgau (Ger) and Rasti vom Gamsetal (Ger).

D. GENERAL INFORMATION QUALIFYING CRITERIA

1 **(a) Height at Withers** 60.5cm **(b) Depth of Chest** 28.5cm
(c) Chest Circumference 77cm **(d) Weight** 31.2kg

2 COAT

(A) Type normal **(B) Condition** healthy

3 COLOUR & PIGMENT

(a) Colour & Markings Black & Tan shaded mask **(b) Pigmentation** strong
