A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

Black & Gold (59.85cm), largem above medium strong, she attracts because of her particularly very typical appearance with very good overall femininity, very good proportions, well-structured head, eye could be a shade darker, well set neck of good length, good withers, firm & dry, very well positioned croup of good length, very good forequarter angulation, rather deep hind angulation, she stands correct, correct coming, slightly wide going, elbows yet to fully close, hocks should be firmer, her step sequence at a walk is sound, her gait is fluent, balanced, very far reaching with effective hind thrust, she is cal and self assured and stands firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

She has a well structured and anatomical build, is well coloured and pigmented with very good fore and under chest, she has nearly correct forequarter proportions however she does have a tendency to raise her back in movement, well developed and well presented. She possesses a very good hip and elbow status and is DM clear.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

On the basis oif her ancestry, especially in her first two generations and she appears very suitable to improve the many positive attributes in regard to type, forequarter angulation, croup positioning and further via her lineage very good predicatability in breeding. In selecting a partner endeavour to ensure he has a strong correct topline, and correct hindquarter angulation. Recommend in the first instance Kaiser von Contra (Imp Ger) with further consideration to Lenin von der Grafenburg (Imp Ger) and if in New Zealand Freemont Watson (Imp Aus).
