A. FINDINGS ON THE DAY OF THE SURVEY (general description of the appearance and constitution, size)

63cm/32.5cm. Black and gold male of correct medium size, above medium strong with good overall proportions, very good type, masculine and expressive, the eye should be darker, good length and angle of the neck, normal withers, good overline, slightly steep croup of good length, good forequarter angulation where his upper arm should be more inclined, very good hindquarter angulation, broad well-muscled thighs, he stands correct in front, correct coming slightly narrow going, he exhibits a ground covering movement with very good drive but his reach should be freer. Calm and self-assured and stands firm to the gun.

B PARTICULAR VIRTUES & FAULTS (in addition to findings in A)

He is particularly well coloured and strongly pigmented with a full dark extended saddle, very good length of foreleg for his age (6 years), he was well presented and conditioned, well developed however his forequarter angulation and croup should be more correct. Praiseworthy was his ability to do much of the evaluation satges off lead and standing freely. He has a good hip status, very good elbow status but is a DM carrier (with one copy of the variant detected).

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (Recommendations & Warnings)

He is phenotypical of his dam's lineage but carries many of the attributes of his sires heritage. He should be in a favourable position to transmit his strong pigmentation and colour, his correct medium height and his calm disposition and demeanor.
