## A. FINDINGS ON THE DAY OF THE SURVEY (GENERAL DESCRIPTION OF THE APPEARANCE AND CONSTITUTION, SIZE)

65cm, large, very good type of male, medium strong, well coloured, good head with very good eye colour, good neck with very good wither connection. Very good overline, very good underline. Croup is very well laid, slightly short, stands straight in front, correct in rear. Good forequarter angulation, very good hind angulations, a little close coming, close going. Very good far reaching movement.

## B. PARTICULAR VIRTUES & FAULTS (IN ADDITION TO FINDINGS IN A)

Very good type of male with very good proportions and presence. He is typical of his sire lines as a young male. He is a little immature in his presentation which should improve as he gets older and his overall strength. He is very energetic, stands sound under the gun test. Very good hips and elbows but care should be taken on sub-lactation with future partners. DM Clear.

## C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (RECOMMENDATIONS & WARNINGS)

A young male with an open pedigree. He has excellent lines behind him. Recommended for breeding to bitches of correct size with low hip score and of good strength. Recommended for a corrector, DM improvement bitches.
