Line Breeding

A. FINDINGS ON THE DAY OF THE SURVEY (GENERAL DESCRIPTION OF THE APPEARANCE AND CONSTITUTION, SIZE)

Black & Gold, 57.5cm, a bitch who presents a very pleasing picture, feminine and expressive, good overall strength of head, medium eye, very good length of neck, normal withers, firm straight back, slightly short, slightly steep croup, stands correct I front, normal forechest development, good length of upper arm but should be better angled, very good hindquarter angulation, broad thighs. She steps slightly narrow going, correct coming, develops a very good ground covering movement, with very good drive, her reach could be a little freer.

B. PARTICULAR VIRTUES & FAULTS (IN ADDITION TO FINDINGS IN A)

She is firm and dry, well coloured and well pigmented, good top and underline, she is the absolute correct size (57.5 cm), has very good hip & elbow status, but she has already achieved her maximum chest depth. She is very calm, and very well mannered.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (RECOMMENDATIONS & WARNINGS)

She is very phenotypical of her lineage. Her siblings in Gustav and Georgia are typey with good overall harmony and build. She has a very strong producing element on both sides of her pedigree, but particularly so in the dam's pedigree via Aimsway Lass Vegas, Westfield Ava and Oakway Irresistable. Both sons and daughters via Westfield Ava and her dam Vaasa show very typey and pleasing types with very good harmony and powerful movements. Just a small caution in regard to gun test reaction on the dams side where ideally, they could be stronger. Gossip Girl herself passed the guntest strongly. Have thought long and hard about linebreeding this bitch back to the Yester lines with his sons or grandsons and recommend the exercise as breeders with a maiden bitch want to choose locally. She is highly recommended for breeding.
