Line Breeding

A. FINDINGS ON THE DAY OF THE SURVEY (GENERAL DESCRIPTION OF THE APPEARANCE AND CONSTITUTION, SIZE)

58.5cm, slightly over medium size, black & gold, feminine & expressive bitch of solid general construction, strong, dry & firm, substantial strong feminine head, medium eye colour, good length of neck, high withers, firm straight back, well moulded croup that could be a little longer, stands correct in front, well developed fore and underchest, with very good fore and hindquarter angulations, steps correct coming and going, good firmness of the hock joints, good elbow connection, she develops a wide outreaching movement with powerful drive, much ground cover, her reach could be a fraction freer, and she maintains a very good wither retention.

B. PARTICULAR VIRTUES & FAULTS (IN ADDITION TO FINDINGS IN A)

A typey full, well coloured bitch, with good overall proportions, very good overall firmness, well-muscled thighs, her masking should be a little stronger and her pasterns firmer. A bitch who shows a strong anatomical and natural ability to perform. Her litters so far have shown good depth and development.

C. ADVICE FOR THE SELECTION OF A BREEDING PARTNER (RECOMMENDATIONS & WARNINGS)

She possesses a strong family heritage especially so in her dams' line and selection should be based on those lines' strengths. Consideration should be given to a male with strong developed nerves, with a well-defined, robust character. Suggest yester v Fuerermelder and Labo v Schollweiher.
